

## What is the EQE Candidate Support Project (CSP)?

This is a European Patent Office (EPO) "Co-operation Roadmap" project. The goal is to support prospective candidates from those member states having five or fewer EQE-qualified Professional Representatives (PRs) in their preparations for the European Qualifying Examination (EQE).

Currently<sup>1</sup>, these 23 member states are: Albania (AL), Bulgaria (BG), Croatia (HR), Cyprus (CY), Czech Republic (CZ), Estonia (EE), FYR of Macedonia (MK), Greece (GR), Hungary (HU), Iceland (IS), Latvia (LV), Lithuania (LT), Malta (MT), Monaco (MC), Norway (NO), Poland<sup>2</sup> (PL), Portugal (PT), Romania (RO), San Marino (SM), Serbia (RS), Slovak Republic (SK), Slovenia (SI), and Turkey<sup>2</sup> (TR).

The project provides prospective EQE candidates with access to existing EQE training seminars and teaching materials, dedicated coaching, and financial support.

## What are the objectives of the project?

- Ensure a sufficient infrastructure of EQE-qualified Professional Representatives throughout Europe in the long term;
- Allow applicants to have access to EQE-qualified Professional Representatives in all member states;
- Achieve a higher pass-rate and increase the proportion of successful EQE candidates without lowering the quality of the qualification;
- Promote the role of national patent offices in developing and supporting the national Professional Representative infrastructure;
- Promote the European Patent Attorney profession as a whole.

## What will be offered to students participating in the CSP?

The activities provided over the three years will comprise:

- Participation by the students in a preparatory session to inform about the organisation of the examinations, and how to prepare for them;
- Classroom training and tutorials;
- distance learning (based on classical and modern media) comprising knowledge exchange amongst the students, virtual classroom training, assignments and homework with feedback given by EPO or epi tutors;
- A personal epi Coach who will be available to answer individual questions, and help with assignments;
- A bursary of EUR 150,- per month during the period they participate in the respective training. The bursary is provided as a gift to the student to cover additional costs incurred while studying for the EQE, such as local travel while attending training, and meals not included in seminar programmes.

---

<sup>1</sup> As of 1 July 2013.

<sup>2</sup> During 2012 & 2013, the CSP accepted 10 students each from both Poland and from Turkey. Therefore we unfortunately cannot accept any further applications from these two countries at the moment.

### **What are the eligibility criteria for students?**

EQE candidates permanently residing and working in one of the EPO member states are eligible to apply to join the project. Candidates will enter the project in the year before they intend to sit the Pre-examination. This means that at the date of the Pre-examination they must have completed a full-time training period and have worked full-time, for a period two years, as defined in Article 11 (7) of the REE. This should ensure that the candidate has already committed to a long term career as a Professional Representative.

### **What are the prerequisites for participating in the CSP?**

The prerequisite for participation in the CSP is that the candidate has successfully registered to sit the EQE Pre-examination 2015.

The registration for the EQE Pre-examination 2015 is open from 1 April to 2 June 2014.

Full details are published on the EPO website and in the Official Journal (OJ) of the EPO.

### **How does a prospective EQE candidate apply to participate in the CSP?**

Prospective EQE candidates must complete a CSP Application Form, and send this together with a motivation letter to the national patent office (NPO) in the member state in which they reside and work. Furthermore, they should supply a letter from their company supervisor, stating that they will support the candidate's participation in the CSP, and allow them to participate in the training events provided.

Applicants will be invited to participate in a 5-10 minute telephone interview with a member of the Professional Education Committee (PEC) of the European Patent Institute (epi).

### **What is the deadline for applications to participate in the CSP?**

For participation in the project starting in 2014, in preparation for the EQE Pre-examination 2015, applications should reach the respective national patent office by Monday 19 May 2014.

**Applicants must ensure they have successfully registered for the EQE Pre-examination 2015.**
